in leading by example

We are the first Summer School in the country to replace paper and books in the classroom with electronic tablets; in fact, by the summer of 2021 we aim to be completely paper-free in everything we do. [Find out more >](#)

in the power of education

Each of our syllabi encourages students to engage with the contemporary world – both in terms of how it is and how it could be. Our lessons focus on both the practical and theoretical skills necessary to be a skilled, positive and effective global citizen in the 21st century. [Find out more >](#)

in kindness, compassion and empathy

This year we will make a charitable donation of £10,000 to four global charitable initiatives working to provide education to some of the most economically deprived areas in the world. Our Summer School students will each decide which charity they wish to donate to on our behalf through a fun and engaging programme of classes, games and activities. [Find out more >](#)

What we do:

We offer a range of industry-leading day and residential educational programmes for international students across six sites in the south of England. In 2019, we welcomed students from 47 different nationalities, thus ensuring a truly global community where everyone has the chance to develop their intercultural communication skills.

The academic classes use cutting-edge technology and teaching methodology to deliver lessons which encourage creativity and free thinking. Our English lessons prioritise teaching through and in English, so that our learners acquire language through authentically engaging with real-world topics.

The welfare and well-being of our students is our highest priority, such that we have teams dedicated to making sure they feel happy and secure. Our experienced and qualified staff live and work with our students 24 hours per day, and our staff-to-student ratio of 1:4 means that our students are always supported and accompanied. We have qualified nurses and/or medical centres at all of our sites.

Our students have the choice of an impressively wide range of extra subjects and activities, from Mathematics to flying a plane! We offer everyone memories that will last a lifetime.

Our Charity Work

In 2021 Bede's Summer School will donate £10,000 to international children's charity ActionAid.

We believe in being kind and compassionate to those who are less fortunate, and these are qualities which should be encouraged and developed throughout our Summer School. So, in 2021, we are introducing our new Charity Donation Initiative whereby our students can learn about some charitable projects which we support and, through a rewards-based system, choose which projects they would like us to donate to on their behalf.

HOW IT WORKS

During the Summer School our students will decide which of the four projects they would like us to donate to.

In each of our locations, we have four clear plastic boxes for each of the charities. Each time a student or a group of students does well – during a lesson or at a sporting activity, for instance – they are each rewarded with a token 'coin' by a member of staff.

They can then choose which charity they would like to donate to by putting their coin in a box of their choice. At the end of the Summer School, we count how many coins are in each box and allocate the money to each project accordingly.

DONATIONS FROM PARENTS AND FAMILIES

It is not necessary for parents and families to donate any money to any of the charitable projects, if they do not want to – this is a project which we pay for. However, if parents would like to make a donation of their own to ActionAid they can do so while enrolling their child at the Summer School, or at [actionaid.org](https://www.actionaid.org)

With our charity partner ActionAid we have chosen four regions in different parts of the world to support, please see below.

Our Charity Work

Izabal, Guatemala

Izabal is one of the poorest and most remote areas of Guatemala. The children here often do not have lunch when they are at school, and many of the teachers do not speak the same language as the students. ActionAid is working to build school kitchens and find teachers who speak the local language.

Our Charity Work

Farta, Ethiopia

Farta is in a mountainous area of Ethiopia; life is very difficult because of war and drought. Often, children do not have enough food to eat because it does not rain enough. ActionAid is working to help farmers conserve land and use less water, as well as helping them to start new businesses such as beekeeping.

Terhathum is in the east of Nepal. It has suffered from 10 years of civil war and several recent earthquakes which have destroyed over 8,000 schools. ActionAid is working to rebuild schools in Terhathum so that its children can receive an education.

We are Paper-Free

At Bede's, we lead by example. Paper production and consumption is too often needlessly wasteful and damaging to the environment.

WHAT WE'RE DOING

We are significantly cutting down on our use of paper:

- In class, teachers and students use laptops and tablets, and only use electronic versions of learning resources such as course books. We endeavour to not use pens or paper at all in any of our lessons
- In our head office year-round operations, we use as little paper as possible, instead we use smart technology such as touch screens
- For promotions, we promote our courses using tablets and flash drives

WHAT THIS MEANS

- Everything that we do is now better for the environment, and will reduce our negative impact on the world, such as pollution and global warming
- We fully embrace 21st-century technology and encourage our students to do the same

We are the first Summer School in the United Kingdom to go paper-free in the classroom.

Nationalities

Last summer, Bede's Summer School welcomed a total of 47 different nationalities.

Little Explorers

Younger children learn best through direct action and multi-sensory experience. This course provides a fun, safe and structured environment for our learners to engage with the wider world through a varied, creative and engaging programme of lessons and activities.

English lessons consist of English Skills, StoryTime and Explorations, where students learn English through stimulating subjects such as science, technology, geography and history.

Before lunch, Siesta Time or Chill 'n' Chat is included to allow our youngest students to re-energise in preparation for a busy afternoon of sports and activities. Optional professional academies are available in a range of sports and other activities.

The evening entertainment programme provides an opportunity for recreation and fun and is designed to immerse students in the English language and culture in a stimulating and innovative way.

Excursions enable students to visit places of interest. These can include a cultural visit to a castle, museum or palace, a visit to a popular tourist attraction such as Big Ben, Madame Tussauds or the London Eye, or something more recreational such as a trip to an aquarium, zoo or theme park.

At the Eastbourne location, day students are welcome, and English classes and a leisure programme are available for parents.

The evening entertainment programme provides an opportunity for recreation and fun and is designed to immerse students in the English language and culture in a stimulating and innovative way.

Excursions enable students to visit places of interest. These can include a cultural visit to a castle, museum or palace, a visit to a popular tourist attraction such as Big Ben, Madame Tussauds or the London Eye or something more recreational such as a trip to an aquarium, zoo or theme park. Pathways to Higher Education

The transition to higher education is a significant moment in a young person's personal, social and academic development. This course is designed to educate, orient and acclimatise those who are considering university in an English-speaking environment.

Lessons consist of Academic English, Skills for Higher Education and Academic Pathways. These combine to form an academic programme themed by specific subject areas, whereby students learn both the language and content required to engage fully in academic study in their preferred discipline.

An intensive IELTS preparation course and exam is also available for students (aged 16+) wishing to gain an internationally-recognised qualification and those seeking entry to university in the UK.

This fully-inclusive programme includes age-appropriate social events and recreational activities in the evening such as paintballing, music concerts, mountain biking, go-karting or discos, designed to immerse students in the English language and culture in a stimulating and innovative way.

Weekend excursions enable students to explore the cities of Brighton or London, which can include a cultural visit to a castle, museum or popular tourist attraction such as the Tower of London, or something more recreational such as shopping in Camden Market or seeing a musical.

LaLiga Football Camp UK

LaLiga Football Camp UK offers a unique opportunity for players to live and train like professional footballers. Students immerse themselves in an intensive, professional two-week technical training course sculpted by world-class UEFA Pro certified coaches from one of the strongest leagues in Europe, LaLiga.

Accompanying the LaLiga coaches from Spain are a number of former professional players from England who have a wealth of playing and coaching experience, with some even representing their country at an international level.

Players learn LaLiga's authentic training methodologies with a focus on creating the 'complete footballer' through tactical, technical, physical and psychological sessions and workshops.

Supporting this is a whole host of advanced high-performance training, video analysis, sports-science workshops, live Q&As with a professional footballer, masterclasses, individualised feedback reports, and competitive fixtures vs local clubs*, culminating in an end of camp showcase event for an overseas training opportunity with an official LaLiga academy in Spain.

Students have 22 hours of football and 10 hours of language tuition per week. The language lessons cover English and Spanish with various entry levels available. English classes are accredited by the British Council for the teaching of English in the UK.

PATHWAYS

LaLiga is hosting a showcase event for international and national players with the outlook of selecting advanced players to train with a professional LaLiga academy in Spain over a 10-day period. Players that attend the camp are automatically enrolled in this event and is a great way to conclude the camp.

Through the showcase event, there will also be opportunities for players to perform in front of university representatives from the UK.

Bede's Senior School is one of the leading independent footballing schools in the country. They have recently won the 'Hudl League' where twelve of the top independent schools compete. Bede's School will be working closely with LaLiga to highlight any potential scholarship opportunities from this event.

Study Tour

This unique and innovative course is designed for adventurous students who want to experience the best of Britain.

London | Cambridge | York
Manchester | Bath | Oxford

Our brand new Study Tour programme gives students the opportunity to travel around the United Kingdom for two weeks with a team of Bede's staff and teachers. In 14 days they visit six cities, spending two nights in each. There are 15 hours of classroom teaching each week, with morning lessons being taught by Bede's teachers in university classrooms and lecture theatres.

In the afternoons the students experience their host cities, with a variety of professionally-delivered guided tours and workshops.

The classroom lessons focus on academic English usage. Learners are encouraged to reflect on topical areas of interest and debate such as news and current affairs, and they develop their ability to discuss, reason and persuade in formal academic genres.

There is also time for fun and exploration; the evening social programme includes activities like going out to the cinema and the theatre and late-night shopping.

Students stay in official university accommodation, to give them an authentic experience of life at a British university. They are continually supervised and supported by Bede's staff, who lead, guide and accompany them throughout.

This course is open to all pupils aged 16–19, and would suit those who have a love of travel as well as a desire to experience and learn more about university life in the United Kingdom.

OUTCOMES

Parents will be emailed an achievement portfolio at the end of their child's course, containing certificates, reports and examples of their work. We present awards in our Leavers' Ceremony, not just for academic achievement, but also to recognise effort and improvement.

SOCIAL PROGRAMME

In the weekend between the first and second weeks, the students do not have any classes. During this time – and other times during the programme – students are sometimes given free time to explore in groups and go shopping.

ACCOMMODATION

Students and staff sleep and eat breakfast at university campuses in each of the cities. In London, for example, they will be based at Royal Holloway, University of London; and in Bath they will stay in Bath University halls of residence.

Students and staff will live in university accommodation in each of the cities. Depending on availability, these may be 'halls', 'flats' or single rooms – either with en-suite or shared bathrooms.

CARE

Bede's House Parents and Activities Leaders will accompany the students and ensure that they are supervised and supported.

Students are accompanied throughout by a team of Bede's staff. The teachers teach the morning Academic English classes and supervise the groups on some of the guided tours and workshops. The house parents accompany and assist the students during the mornings and evenings and social programme events. There are medical centres and facilities close by in all cities.

FACILITIES

Facilities at each of the university residences vary. However, all have modern amenities such as WiFi and clean, secure comfortable accommodation. There are opportunities to do laundry at various points during the Study Tour.

TRAVEL

Travel between cities will be in modern, air-conditioned coaches.

EVENINGS

Each evening students will be provided with entertainment options such as going to the cinema or activities in the accommodation areas (such as card games).

Academic

Lessons will be taught by Bede's teachers, who will travel with the students throughout the programme. Classes focus on academic English, Higher Education and British society and culture. They will be taught at the university campuses where the students are staying.

PROGRAMME

The two-week Study Tour programme includes 30 hours of Academic English tuition and around 12 hours of interactive workshops and guided tours. It begins in London, where students spend the first night after arriving. The group then travels to Cambridge, York, Manchester, Bath and Oxford, then returning to London for one final night before the end of the course.

SYLLABUS

The syllabus focuses on two areas: academic debate and discussion of contemporary issues and the history and culture of the cities that the students visit. It is tailored to the students' ages, needs and interests to ensure efficient and engaging learning.

LEVELS

There are three classes:

1	B1–B2	Intermediate
2	B2–C1	Upper intermediate
3	C1–C2	Advanced

METHODOLOGY

All English teachers are suitably qualified according to the Accreditation UK criteria. The teaching methodology is communicative and interactive, with creativity and personal expression encouraged.

PLACEMENT TEST

The placement test upon arrival will place students into classes based on their English level. As much as possible, classes will have a mix of nationalities.

ACADEMIC ENGLISH

(15 hours per week)

The Academic English classes focus on the language and communication skills necessary to participate in Higher Education in the UK and other English-speaking countries. The classes are mostly skills-based, with sessions on essay writing, debate, presentations and seminars. The topics chosen are of contemporary interest and relevance to young global citizens.

'LEARN ABOUT' SESSIONS

These sessions are classroom-based, and involve learning and discussing key facts and events that shape the cities that the students visit. This includes the cities' histories, as well as current affairs and the international profiles of their universities.

'EXPLORE' SESSIONS

The Explore sessions introduce the students to the highlights of each city. On same days, the students are given fun and engaging guided tours by local specialists; these might include tours of venues such as Old Trafford, the home stadium of Manchester United, or historic guided night-time tours of Cambridge and Oxford. We also offer activities designed to help the students relax, have fun and socialise. Events may include going to the theatre or cinema, going out for meals and river-boat trips. Students aged 15–17 must be supervised by Bede's staff, while students aged 18–19 are able to spend their time more independently.

Academies

Our portfolio of optional Academies perfectly exemplifies our approach towards student-centred learning and programme design.

Each student can customise their experience at Bede's with the opportunity to extend and expand their learning in and out of the classroom in small, supervised groups under expert tuition.

Academies can bring many benefits: some stimulate students' creativity, others expand their capacity for reflection and others help students to develop their critical thinking skills. Some raise students' fitness levels and ability, while others help students to improve their self-confidence by challenging them to step outside of their comfort zone.

Every academy, whether it be a sport, creative activity, leisure pursuit or academic subject will help students to develop their communication skills, confidence in speaking and fluency.

Meals.

For residential students, all meals are included in the weekly package price and students can expect a healthy and wholesome breakfast, lunch and dinner every day. A morning and evening snack is also offered (fruit, cake, mini sandwich, juice, milk).

[Overview >](#)

[Typical dishes >](#)

Meals

As there are students from lots of different countries, the menu offered at Bede's is a mix of typical English and International food.

There are always two different hot choices available and a salad bar. Students can choose their preferred option at every meal time.

A vegetarian option is always offered and special requirements are catered for, especially for those students who have food intolerances. Students who cannot eat certain foods for religious reasons are also catered for at Bede's at no extra cost.

Having different food is part of being in another country and being at Bede's is a great opportunity to try some new, typically English dishes.

Students need to understand that the food served at Bede's will not be the same, or taste the same, as what they have at home!

On excursion days, students are offered a packed lunch/dinner that will usually consist of a filled sandwich, roll or wrap (for example, cheese and ham, chicken salad, tuna and sweetcorn), a snack (for example, a cereal bar), a piece of fruit and a drink.
