"Going to Hutong School was an unforgettable experience for me. I did an internship through Hutong School to witness China's rise first-hand. My internship, Chinese classes, cultural activities, accommodation...it all was very well taken care of! It is totally worth it! Hutong School really makes you feel part of a big family!"

Juan Carlos Rodriguez Moreno, Spain

"The Hutong School team is young, dynamic, flexible, open to any suggestion and ready to help anytime if you ask for assistance. ## INTENSIVE CHINESE PROGRAM

The Intensive Chinese Program is aimed at students with a profound interest in learning Chinese.

## INNOVATIVE TEACHING METHOD

Specially adapted to the specific needs of every student, our teaching method, separating spoken Chinese and character recognition, has been proven to boost Chinese language learning. While progressing quicker in spoken Chinese, students also lay better foundations for character memorisation by understanding the logic of characters' construction.

## STUDENT-CENTERED MANDARIN TEACHING

Because personalized teaching is the key to fast and efficient results, we at Hutong School believe in one-on-one level assessment, a study plan and classes with an average of 4-5 students in order to facilitate learning Chinese.

## GUARANTEED RESULTS

Our results-orientated method guarantees fast improvements. In just 3 months time, students are able to engage in basic conversation in Chinese and recognise about 600 characters.
