We also offer a **schedule that is accessible to all geographical areas**, since our teachers can access Skype from any Sampere school in Spain or abroad, thus facilitating the possibility of being connected to the language at all times.

Besides receiving bespoke lessons with your teacher via Skype, **you will have access to a virtual platform** where you will find a wide range of study books, exercises, and videos, as well as additional materials to keep on learning.

Classes last 50 minutes (45 minutes + 5 minute margin for unforeseen events).

This program consists of a 2-week **Intensive course designed for teachers** of Spanish who want to learn new methodologies, classroom activities, teacher planning, organizing cultural programs and creating and / or editing of materials to teach Spanish as a Foreign Language (ELE, in Spanish).

During this **2-week program**, participants will learn about ELE teacher training, and live real situations with international students, as during the last week of the program they will be able to apply all the theoretical content learned in one of our centers.

In addition, students will receive a seminar on “New Technologies in the Classroom”, and have access to a Premium license On-line Teaching Platform - Virtual Classroom.

The course is structured in different modules, which will cover the strategies and resources that an ELE teacher needs in the classroom, whether for in-class lessons or for on-line learning platforms. The course consists of four modules:

THEORETICAL ELE TRAINING: During these weeks, students will receive theoretical training in teaching Spanish as a Foreign Language (ELE). Content includes:

- Learning to determine the language ability of students.
- Planning courses and objectives.
- Course assessment: How and when to organize a test?
- Presentation and study of textbooks and teaching materials.
- Creation of teaching materials.
- Presentation, study and practice of the most important aspects of Spanish grammar.

TEACHING SHADOWING: During the program, participants will also have the opportunity to observe different kinds of Spanish lessons at Estudio Sampere. In this way, participants will be able to learn from a variety of teaching styles and practical techniques.

At the end of this experience, students must submit a placement report and make an oral dissertation to share what they have learned with the school staff.

“Salud” program

SALUD PROGRAM

AVAILABLE AT:

- CUENCA

Our **SALUD (Health) program** is aimed at **students of medicine, nursing or pharmacy** who wish to learn Spanish medical vocabulary, and get acquainted with medical healthcare practices in a Latin American country. It also includes observation of medical practices in a non-profit health center in Cuenca, Ecuador. Due to Ecuadorian regulations, students may only participate as observers, and share their opinion with the healthcare personnel, but they cannot examine and/or explore patients.

This program consists of a full professional and linguistic immersion as, for the duration of the experience, participants will be in contact with the Spanish language, the work culture of the different health centers, the academic culture of the doctors, nurses and healthcare personnel, and the local culture of the patients. Students wishing to take part in this program are required to have a **B1 level in Spanish**, which may be acquired or consolidated with the **intensive 4-week course included** in this program. However, if after this course they feel that they lack confidence in the language, they may also extend their Spanish course at Estudio Sampere until they feel they have the necessary tools to enjoy this experience.

OUR SALUD PROGRAM INCLUDES:

- **Intensive Spanish course:** Students will take part in a 4-week course on Spanish language, culture and civilization. These lessons are organized in small groups to ensure a communicative and progressive learning experience.
- **One-to-one lessons:** during the second, third and fourth week of the program, students will have 5 private (one-to-one) lessons per week, focused on the health system of Ecuador, related vocabulary and medical terminology.
- **Medical observation:** participants may participate as observers for three weeks in different hospitals and local clinics in Cuenca. This is a one-of-a-kind opportunity, where every day provides the opportunity to learn from the experiences and decisions made by healthcare personnel, ask questions and see real medical situations.
- **Visits to public and private healthcare facilities:** participants will have the chance to see the different types of facilities available for Ecuadorian patients, according to the specialty and the type of condition that they suffer from.
- **Guided tours and cultural activities:** On the first day of the program, participants will enjoy a cultural guided walking tour, where they will see everything that Cuenca has to offer: lots of museums, restaurants and hotels, traditional bakeries, and craft workshops, among other options. Estudio Sampere Ecuador has a wide cultural range of cultural options for students to discover every week, which will very likely make them fall for this city with every passing day.
- Single room and **full-board accommodation** with a host family.
- **All course materials.**

Volunteer program

VOLUNTEER PROGRAM

AVAILABLE AT:

- CUENCA

If you want to live a unique experience that will change your life, being a volunteer is a great option available in **Cuenca, Ecuador**. We will be happy to find the right program for you, as we are experts in the promotion of **social activities with local associations and international students** who want to lend their support, time, knowledge and values to them. Volunteer services may go from **four weeks to one year**, depending on the association and the Spanish language program of your choice.

This volunteer program can be the perfect complement to any Estudio Sampere Cuenca language course: either the intensive course, one-to-one lessons, or the Travel & Study program, if you want to know the country before diving into the local culture.

Estudio Sampere aims at collaborating with **social welfare institutions** working with **children, elderly people, or people at risk**. Our team will advise you on the type of volunteer work you can do, and look for an association that meets all your needs, with regard to an international volunteering experience. **You will be able to put everything you have learned into practice, while improving your language skills in real situations, with the permanent support of our team.**

Dancing classes

DANCING CLASSES

AVAILABLE AT:

- LA HABANA

If you choose **Estudio Sampere Cuba** as your preferred destination to learn Spanish, remember **this is the perfect occasion to learn the island's typical rhythms and dances**. At Estudio Sampere, we believe that culture plays a very important role when learning a language, especially Spanish, given the large number of Spanish-speaking countries, and the fact that each brings a unique nuance to the language.

Cuba has an extensive cultural identity in terms of popular and traditional Cuban dances, and Estudio Sampere wants you to be a part of it. You can add these classes to any Spanish course you want, either our 20 or 25-lesson programs, the Travel & Study course, or even private lessons (one-to-one), if you want to share this group experience with other international students from school.

You've probably heard of the **various Cuban dancing styles** on the island, like **salsa, rumba, son, mambo...** Well, these are just some examples of the **rich musical heritage that you will discover with our dancing lessons**. Our local Sampere staff is made up of locals that will teach you to dance and enjoy the experience of learning Spanish, while discovering the Cuban culture and traditions one step at a time.

Accommodation

Accommodation options:

- Host Family
- Student Residence
- Student room - shared flat
- Apartment - studio
- Hotel

Good, comfortable, welcoming accommodation makes all the difference when it comes to your Spanish studies in **Spain, Ecuador or Cuba**. We understand this and work hard to give you the best choices of accommodation in all destinations.

Estudio Sampere inspects all accommodations and selects them based on their good value, cleanliness, reliability, facilities and location. We have direct management of the accommodation, avoiding any intermediary.

Our accommodation team will go above and beyond to find the best option for you, based on your needs and preferences. **Our team will advise you and assist you**, should you have questions on the geographical situation of the area that you will be staying at, getting to school, communicating with your host family or the owner of the apartment, living with other international students, and particularly with Spanish speakers, as well as on their traditions and customs, gastronomy, and your food preferences. **The idea is to adapt everything to your daily habits, so that you feel like home.**

We know every student is unique, and has a different lifestyle. Whatever your option and your destination is, you can make sure Estudio Sampere will make you feel at home!

STUDENT ROOM

Renting a student room provides a more independent lifestyle. Students share an apartment with 2 to 4 other people, usually other Sampere students, with whom certain expenses and household tasks can be shared.

STUDENT RESIDENCE

This type of accommodation is available in certain destinations and programs. It includes full board and laundry facilities.

HOST FAMILY

This option provides a **full linguistic and cultural immersion**, since students not only practice the language in class with their teachers, but also have real-life experiences with their host family. **They help students on their day-to-day, and teach them vocabulary and expressions that are typical of each region**, and of each member of the family. This way, students get a first-hand approach on how to live Spanish speakers, their local gastronomy and jargon.

At home, students will share the common areas with the rest of the family: the living room, kitchen, bathroom, but they will have, of course, their own private bedroom. **In case of couples or friends travelling together, the choice of a double room is also available.**

Families have been **carefully hand-picked** to meet our requirements. As language experts, we know that being away from home can affect the student's learning and overall experience. Thus, our families are used to **welcoming students and making them feel part of the family**. We select the family based on the students' interests, so that

this experience can provide both an **academic and a personal enrichment**.

Students can choose the half-board option, if they also want to try the delicious local cuisine offered by each destination at local restaurants, or full-board if they want to take full advantage of the experience of discovering traditional dishes, prepared with great care by the families.

The Director of each school, always at the student's disposal, can change a student's accommodation if the need arises. If the student is not happy and wants to change family, the School will propose the names of three additional families that the student can visit and then make his/her choice. There is no extra cost if a student decides to change families.

Thanks to our **more than 60 years of experience** hosting students, we are confident that we will be able to fulfill your expectations. Our most recent satisfaction survey shows a **90% success rate**, both for students and for members of the families.

APARTMENT - STUDIOS

Apartments are available for individual students or two people booking together. Typical studio apartments feature 1 or 2 beds, a bathroom and kitchenette for an enjoyable and comfortable stay.

HOTELS

Estudio Sampere can recommend hotels and hostels for different budgets in all five destinations. These properties are located close to the schools. We have worked with these accommodations for many years and have special rates in most of them.
